Company Sign Sales Agreement To Purchase Urban Renewal Property

Robert C. Sprague, Chairman of the Board and Treasurer, signs the \$159,824 sales agreement for the purchase of urban renewal land from the North Adams Redevelopment Authority. Seated on the left is William J. Nolan, Vice-President Legal of the Company. At the right is Attorney James W. Lilly, Authority Counsel. Standing left to right are: Norman D. Schulze, Chairman of the Redevelopment Authority and Robert E. Kelley, Assistant General Counsel for Sprague Electric.

Culminating months of negotiations on November 15 was the signing of a \$154,824 sales agreement for two parcels of urban renewal land purchased by the Company from the North Adams Redevelopment Authority. Involved was 228,321 square feet of land across the street from the Marshall Street offices of the Company. It is on a portion of this land that the Company's modern research center will be built.

The agreement was signed by Mr. Robert C. Sprague, Chairman of the Board and Treasurer, with Mr. William J. Nolan, Vice-President Legal, witnessing Mr. Sprague's signature. Also present at the signing were Norman D. Schulze, Chairman of the Redevelopment Authority; James W. Lilly, Authority Counsel; and Robert E. Kelley, Assistant General Counsel for Sprague Electric.

The deed is to change hands on or before December 31 and the Com-

R. C. Sprague Announces Plans For Transistor Division At Concord

Mr. Robert C. Sprague, Chairman of the Board and Treasurer, recently announced plans to establish a Transistor Division with headquarters at the Concord, New Hampshire plant. It would encompass all engineering, manufacturing and sales activities dealing with transistors. Mr. Sprague also announced the manager of the new division will be Robert L. Parrish, presently General Manager of the Concord plant.

The transition from the present arrangement to the new operating procedures will be a gradual one as the details are worked out by Mr. Parrish with the senior executives and department heads responsible for the Company's major activities.

The Solid Electrolyte Tantalum manufacturing operations, under John Puppolo, Factory Manager, will continue to report to Mr. Parrish, but will not be included within the scope of the new division.

As with the Special Products Division, the Transistor Division will be provided with services on a central

Toys For Tots Drive Started By Management Club and Transcript

With two successful Toy for Tots Fund programs in 1958 and 1959, the Sprague Management Club and the North Adams Transcript will again team up for another such program this Christmas season.

The purpose of the drive is to provide toys and clothing for children of needy families throughout the Northern Berkshire area.

In its first year 695 children of 218 families received new toys purchased by the Fund. Clothing certificates totaling \$415 were given to 27 families. Last year's drive provided presents for 803 children in 205 families. A total of \$1,070.33 was contributed to the drive by generous area residents and helped provide new toys and clothing certificates.

Co-chairmen for the 1960 drive are James Oldham and William Carlton of the Sprague Management Club. The Club will select the families who are to be helped by the fund. The selections are made from information supplied by area clergymen, police and welfare departments and other charitable organizations.

In connection with the Toy Program the following committees were announced: Recipient Committee: John Flaherty, chairman; George Bateman and Francis Wilson, Collection Committee: George Roy, chairman; Carlton Perry; Arthur Caron; James Nicol and Philip Talarico, Repair Committee: Peter Jobin, chairman; and Earl Sherman. Recruiting Help: Joseph O'Brien, chair-

VecTrol Engineering, Inc. New Subsidiary of Sprague Electric

Walter G. Brown, President and chief engineer of VecTrol Engineering, Inc. demonstrates an "electric motor gear shift" one of the many ideas which his company has patented since 1955. Mr. Brown has well over 100 patents to his credit.

Continuing the Company's program of carefully selected diversification within the electronics industry, Mr. Robert C. Sprague, Chairman of the Board and Treasurer, announced the recent acquisition of VecTrol Engineering, Inc. of Stamford, Connecticut. VecTrol is a leading manufacturer of Silicon-controlled rectifier gate controls and thyratron grid controls for industrial electrical apparatus.

4% Dividend Voted By Credit Union

At the semi-annual meeting of the Credit Union held on Tuesday, November 15, the members voted a 4% per annum dividend for the six month period ending October 31. This is an increase of 1/4%, for some 2,764 members, over the dividend declared for the corresponding period of a year ago.

Election of officers and directors was also held. All of the officers were re-elected. They are: President, Peter Mancuso of Quality Assurance and Reliability; Vice-President, Howard Sherman of QAR; Treasurer, Robert Armitage of General Accounting; and Assistant Treasurer and Secretary, Joan Durocher of General Accounting.

Five directors were elected for three-year terms. Re-elected were: James Nicol of Special Products Division, Harold Twitchell of Office Services, and Joseph O'Brien of QAR. New directors elected were Henry Mallory of Purchasing and Joseph Moresi of Research and Engineering.

Directors not up for re-election were: Robert Armitage, Marion Caron of Personnel; Joan Durocher, Howard Sherman, Arthur Spencer of Bathtub and Miscellaneous Paper Assembly, Thomas Dion of Maintenance Cost Control, Henry Doane of Industrial Relations, Peter Horbal of Cost Estimating, Emma Jobin of Purchasing, and Peter Mancuso.

Treasurer Robert Armitage made the following report on Credit Union business conducted during the past year. A total of \$1,062,000 was loaned in 1941 loans for an average of \$547. There were 1274 borrowers and 398 individuals purchased Savings Bonds through the payroll deduction program. All of these figures represent substantial increases over the previous year. Assets of \$1,123,000 were on hand as of October 31. This is an increase of 22% over the 1959 figure.

Committee appointments for 1960 are as follows: Credit, Joseph O'Brien, chairman, Henry Doane and Marion Caron; Auditing, Peter Horbal, chair-

Mr. Sprague said, "VecTrol's products naturally complement those of the Sprague Special Products Division. Their business should undergo a large expansion as a result of the additional technical and financial resources which Sprague Electric will make available to them."

VecTrol will operate as a wholly-owned Sprague Electric subsidiary with Walter J. Brown, its founder, continuing as President and Chief Engineer. David B. Peck, Manager of Sprague's Special Products Division will be the group executive responsible for overall supervision and coordination of VecTrol's operations with the parent Company.

Mr. Brown is a well known inventor in the electric and electronic field and had over 110 patents to his credit before establishing his own company, and has received approximately 20 more since then. He pioneered in radar, high fidelity and pocket radios 25 to 30 years ago.

VecTrol is a very young, but fast growing company. Their inventions now provide the electronic power controls for a substantial part of the adjustable speed shunt motor drives used in the United States. The largest manufacturer of these drives in Canada also uses 'VecTrol' control units. Other products made by VecTrol include power servo-amplifiers, electronic temperature controls, frequency regulators for alternators, phase modulators for F-m transmitters, phase controls for regulated d-c power supplies, and other industrial control devices.

Sales & Engineering Personnel Conclude Tour of Facilities

In a repeat of last year's successful Sales and Field Engineering Personnel Tour, seven Sprague Electric employees were recently given a complete and comprehensive tour of the Company's facilities. The tour, which began on Monday, October 17, continued for approximately three weeks and concluded on Thursday, November 3.

Taking part in the scheduled orientation were: James Andrews, Manager of the Dallas, Texas Office; Marvin Black, Sheldon Howard and Stanley Waco, all Sales Engineers from the Los Angeles, California Sales Office; Robert LaBarge, Field Engineer of the Dayton, Ohio ICFCS Labs; Harvie Whiting, Jr., District Manager of the Dayton Sales Office; Jerold Kowalsky, Field Engineer, North Adams, and James Fischer, Product Specialist Piezoelectric Ceramics, North Adams.

Illuminated Sign To Announce Location of Marshall St. Plant

An artist's sketch of Building 12, Marshall Street shows the new illuminated Sprague Electric sign which will be erected soon. The sketch looks north on Marshall Street past the Company's executive offices and toward River Street.

Something new will be added to the roof of Building 12, Marshall Street. It was announced that a double face illuminated sign will be erected soon on the peak of the building which will be visible from the Artery and overpass.

Names in the News

ROBERT C. SPRAGUE, Chairman of the Board and Treasurer, was one of five men named as members of a Civil Defense Advisory Council for the U. S. Office of Civil Defense Mobilization for Region 1.

ERNEST JONES, JR., Section Head, Planning, was appointed a member of the Mount Greylock Tramway Authority. He is also a member of the North Adams Mayor's Advisory Committee.

VERNON DUROCHER, of Quality Assurance and Reliability, served as chairman of an informal Hallowe'en party and dance sponsored by the Greylock Lodge of Masons.

HAROLD TWITCHELL, Department Head of Office Services, served on the current session of Superior Court held in Pittsfield, Massachusetts.

ANTHONY RUSCITO, of Field Engineering, and RAYMOND LAMOUREAUX, JR., of Quality Assurance and Reliability, were awarded a patent for a combined capacitor mounting arrangements wherein a relay box is so constructed that a motor-start capacitor and a motor-run capacitor may be secured to the box for mounting as a unit in an air-conditioner.

EARL BURKE, Department Head of Factory Engineering, was awarded a patent for an automatic capacitor winding machine having improved means for transporting cut foil to the winding madrel.

Continued on Page 10, Col. 3

MANAGEMENT CLUB INSTALLS 1961 OFFICERS

Joseph O'Brien (left), outgoing President of the Sprague Management Club, in his capacity as President of the New England Area Regional Council of the National Management Association, administered the oath of office to the newly elected officers of the Sprague Management Club. Taking the oath were: Carl Perry, President; Philip Talarico, Vice-President; James Nicol, Secretary; and Zygamond Nash, Treasurer.

F. Ralph Transfers At Barre, Vt. Plant Pryor New Manager

It was recently announced by Mr. Bancroft Dwinell, Rock of Ages Vice-President in Charge of Manufacturing operations, that effective January 1, 1961, Frederick Ralph, who has been Plant Manager of Rock of Ages Capacitors, Inc. since October 1954 will be transferred to the parent Rock of Ages corporation for administrative training in manufacturing.

Succeeding Mr. Ralph as Plant Manager will be Gerald Pryor who has been Plant Superintendent of Rock of Ages Capacitor, Inc.

Leopold Laliberte, Production Engineer in Rock of Ages Capacitors will be promoted to the position of Plant Superintendent.

Fortini Named New Formation Foreman

DONALD FORTINI was named Foreman of Tantalum Formation and Pellet Room in an announcement made on November 1 by Mr. Robert S. Teeple, Factory Manager. He will report to Joel Pierce, Superintendent of all Tantalum activities. The move was made possible by the transfer of Arthur Molleur to Autonetics Finish as Foreman of that department.

A native of North Adams, Mr. Fortini joined Sprague in July 1942. He attended local schools including Drury High School. He has been a supervisor in Tantalum Formation since 1955. He is married to the former Claire Hurlbut of North Adams and they have two girls and two boys.

(Continued from page 1)

man, Emma Jobin and Harold Twitchell; Education, Thomas Dion, chairman, Joan Durocher, Henry Mallory and Joseph Moresi; Car Loan, Peter Mancuso, Thomas Dion, James Nicol, Arthur Spencer and Henry Mallory.

On November 30 the Sprague Credit Union will sponsor the meeting of the Berkshire County Chapter of the Credit Union League of Massachusetts. Invited are representatives of 18 area Credit Unions. Speaker for the evening will be Mr. Leonard Nixon, President of the CUNA Supply Cooperative, and Managing Director of the Connecticut Credit Union League, Inc. Mr. Nixon has been active in Credit Union for many years and has lectured extensively.

H. Twitchell To Head Up Office Services

It was announced late in October that Harold Twitchell, formerly Supervisor of Data Processing was transferred to the position of Department Head of Office Services. Mr. Hollis R. Wagstaff, Vice-President, Fiscal, made the announcement of the change. Mr. Twitchell will be responsible for inter and intra plant mail services and the Central Stationary room. In this capacity he will report to Robert Armitage, Chief Accountant and head of General Accounting. Office Services was transferred to General Accounting in changes made last September.

Mr. Twitchell joined Sprague in February 1946 upon his discharge from the service. He is a native of Norway, Maine where he graduated from Norway High School. Upon graduation from Baypath Institute, Springfield, Massachusetts in 1941 he joined General Electric Company in Schenectady, New York as assistant to the Director of Business Training.

Mr. Twitchell joined Sprague as Assistant to the Vice-President of Production and in 1948 became Assistant to the Director of the Export Division. In 1950 he became Supervisor of Data Processing. He is active in the Sprague Golf league, Sprague Products Bowling league, the National Machine Accountant's Association and the Reserve Officers Association of the United States. Married to the former Agnes Graves of Adams, Massachusetts, they have two children.

AMERICA gives you the tools!

A million new jobs a year call for at least \$14,000 new capital investment per job - fourteen billion dollars per year! And at least another twenty billion dollars a year will be needed to maintain the plants and machinery providing the 66 million present jobs. Where is the money coming from?

From the same sources of capital that have provided it in the past... savings in the form of retained earnings of corporations and the savings of the American people... your savings, we hope. Freedom under the American way of life has given you the tools and the incentive to do your part by contributing your work, savings and investments.

WORK
where you choose.

SAVE
as much as you can, and regularly.

INVEST

your savings where and how you choose... in a savings account, in a home, in life insurance, in a local store, in stocks or bonds.

Only with the collective savings and investments of the American people, representing a product of their work, can America continue to build the bright future envisioned for tomorrow.

And tell the world about America's future!

Why is it worth working for?

...because the past has shown that no other economic and political system provides the blessings we enjoy. Let every proud American become a missionary for the principle of a free America.

Tell the world, "I am a capitalist! I invest in America!"

PERSONNEL TOUR

NORTH ADAMS AND NASHUA PLANTS

Many of the Nashua Plant operations attracted a great deal of interest from members of the tour.

Prior to the tour of the Nashua Plant, the group gathered in the conference room to listen to a discussion of our product line and manufacturing facilities.

In the plant the group had the opportunity to view the Nashua operations first hand.

The group gets a closer look at a manufacturing process at the Marshall Street Plant.

By seeing how our products are made, the group will be better able to explain Sprague quality to our customers. This picture was taken at Brown Street.

Departmental News . . .

Marshall Street MEMOS

Sprague International, Ltd.

by Suzette Lemieux

Another month—another tale. This time it's the story of our Halloween revelers, notably Barbara Neville, Marilyn LoPresto, Chris Ameen, Nancy Kelly, Henry Loh, Ted Liu, Ken Haskins, and yours truly, who by hook or crook, trick or treat, managed to get quite a few good laughs scaring up the goblins and whipping up a little mischief along the way.... Calorie-wise, it's been rough, with scrumptious birthday cakes making an appearance just about every week last month, for Jo Ferris, Rudy Lederhofer, Chris Ameen, and yours truly. Some of our gals certainly can whip up a good cake; and of course, these come with the works: candles (there's fewer and fewer of them), singing, speech, et al.

On the casualty list, we find Mary Roberts with a swollen ankle (and that's not helping the bowling score for our side) and Sandy Segala with a bandaged finger that just won't fit in the bowling ball (and that's not good for the score on her side.) Not so critical but nevertheless to be mentioned is the brave stand of Gayle Levenson and William Adams against the croup, and Rudy Lederhofer and

yours truly in the sneeze department. Gayle and yours truly are trying to tackle the jolly season ahead.... As for the World Series, suffice it to say that there were those who smiled and those who didn't.... this also applies to the elections. Regarding the elections, there was much 'politicking' here in our own ranks—a few teas and sherry parties and picnics and \$100 dinners attended.... In the public eye appeared our own Nancy Kelly in her sleek white convertible, chauffeuring an impressive group of guests in North Adams' superb Fall Foliage parade.

Among the newest news is Bertha Richards' new green white-walled (heated now working) pop-up hood '61 Chevrolet, their pride and joy; our new gal, Pat Doubleday, who we hope will come to understand us; Myrna and Don Harvey's new living room set and wall-to-wall carpeting which certainly sounds inviting for those nice cold wintry nights just around the corner.... As for social activities, Barbara Neville cavorted merrily at the Military Ball in Adams on November 4. Dot Belanger assisted in the first birthday celebration of her godchild in Glens Falls. Sandy and Frank Segala celebrated their wedding anniversary with dinner at the Elwalt Pines on October 30. Nancy Kelly we hear enjoyed a wild game supper recently—we haven't been able to establish if this was actually a supper of wild game or a game supper which was wild. Either way, who can lose?

At the Lemieux residence, there were a couple of hectic moments (all pleasant ones) when brother Ray and wife Annette, plus the two little angels(?) Paul, 2, and Greg, 1, from Lambertville, Michigan, came to spend an Autumn holiday in early October. Sister Denise and yours truly pulled out the "Child Psychology" books and managed decently well, thank you.... On the Haskins home front, meanwhile, there was something fishy afoot as their four-months lad, Stephen, and the family hound, Dancer, managed to stir up a rumpus in the deep hours of the night. Needless to say, Ken started looking peaked after about two weeks of that. Hope Joan enjoyed the nocturnal hours better than he did.... In closing, we bid "Bon Voyage" to Raul Ayala, Emilio Navarro, and Humberto Uquillas who have all headed South of the Border, back to Mexico. Too bad they'll miss all our nice snow!

WE Misc. Dry Test & Ship
by Ella Genesi & Emily Wlodyka

The Fall Foliage parade of North Adams was outstanding. It seems that it gets better every year. Our Mr. R. C. made a very affable "grand marshal"! (Can't you just picture him wearing a high hat, cut-aways, white gloves and cane? With his military bearing, what a picture he'd cut!!) The Sprague float depicting statehood of Alaska and Hawaii was very timely and to the point. Ziggie Nash made a very convincing 'Uncle Sam' and anyone had to look twice before

realizing that it was Pete Mancuso and not a native sitting on the Hawaii side of the float.

Another outstanding affair was the Log Banquet as pertaining to the meal and entertainment. Here too, the Hawaiian theme was carried out to great advantage with a Hawaiian background and decorations and a group of reporters singing and dancing to Hawaiian tunes. A great big 'thank you' to all who in any way contributed in making this such a gala evening. Congratulations to Helen Burdick who received an award for "outstanding reporter of the year". Keep up the good work, Helen.

We wish Luisa Meranti a speedy recovery. She recently underwent major surgery at the North Adams Hospital. We're all rooting for you, Luisa. We miss your ready wit and hearty laugh.... Rumors are flying 'thick and fast' about Harry Beverly.

We wonder why he can't go hunting any more and why he looks so tired on certain mornings and on other mornings looks as if he were walking on 'cloud 12' (or is it 9, ha, ha). Come on now, Harry, don't keep us in suspense any longer!... Say gang, doesn't it seem nice to have my good friend and co-reporter, Ella G. back with us again after her short lay off!... A great many people were made very unhappy about the outcome of the election, but regardless of who got in it was the people's choice—for after all, it's the majority that rule!

Happy Holiday season to all! We leave you now with these thoughts: "It's easier to lead one to drink, than to drive him away from it!" "The character of the giver is shown more by the manner of giving than the gift itself."

Quality Assurance and Reliability

by Mae Stoeber

Congratulations seem to be in order in our department this month. Mike Malanga and his wife are on Cloud 9 with their new little Miss Malanga; she has 3 older brothers.... Congratulations also to William Neumann, Robert McPherson and William Martin who have been promoted to Section Heads in their various groups.... Our best to Harold May who recently received a patent jointly with Anthony Ruscio.... And to the QAR Softball team who are now champions and received a beautiful trophy on November 15th for their great efforts. Our boys are Pete Mancuso, Verne Smith, Fran Brazeau, Jim Robinson, Tony Tassone and Al Boyer.

Mr. Clark recently distributed 10 year pins to the following: Corinne Gallup, Joan O'Hearn, Mae Stoeber, William Martin, Ed Catotti, Fran Brazeau, Joe Brewer, Bob Burr, Dick Davine, Les Dumoulin, Milt Hattat, Mickey O'Neill and Pete Jeffers.... Ivis Lewis has had quite a session in the hospital with a slipped disc. We hope that by now she is completely well.... We hear Joni Williams had two busy week-ends recently. One at Dartmouth College and the other battling with six extremely lively children—what a babysitter.... Barb Ciolkowski spent a busy week-end at the University of Massachusetts, too.

Elaine Jagiello of the Dry Division recently celebrated her birthday, and after a visit to Berkshire Downs, says she can't wait to go again. Pretty lucky.... Marcia Harvey is once more working with the 'Dry' people, who welcome her back, and Verne Durocher has been transferred from Brown

Charles Delott, formerly of Ceramic Lab, is shown with his wife Chiela while on vacation in Chicago this summer. They have since returned to make their home there.

Barbara Law (left) of Sales and Bonnie Jean Law were attendants at the marriage of their sister the former Sue Law. They are the daughters of Joe Law of Filters.

Street... Mary Puccio is welcome to Blue Print by the girls, and Mary Aldrich is now with us at QAR... Al Richards has been teaching Lester Dumoulin a new song ("I'm A Little Teapot") It's really very cute, if only Lester could get his handle and spout correct. Les did all right creating the following little ditty: "Ronnie Durant bought a wooden whistle, but it wooden whistle, so he bought a steel whistle, but it steel wouldn't whistle, so he bought a tin whistle—and now Ronnie tin whistle... Ronny Hopkins' children have had the measles, and everyone is watching Ronnie these days... We are sorry to lose Carolyn Aubin, but know she will be happy in her new job... Have you all got your Christmas shopping started? Better get going!

Check Inspection

by Betty Jangrow

The Log Social Committee had a wonderful evening at the rehearsal for the banquet program held at Marion Manion's home... The annual Christmas party of the Check Inspection department is to take place at the Fireside in Cheshire this year. Mary Odell is in charge... Both Victor Modena and Jim Lewis will celebrate birthdays on December 10th... Congratulations also to Mr. & Mrs. Victor Modena whose 11th wedding anniversary is also December 10th. They have two children, Sandra Jean and Victor, Jr.

The hunting season is on and we have many hunters in our group so take care that when you return with the deer, that you will be the one to take the pictures and also enjoy the venison... We hope that "Chuck" Wilson will get some real interesting pictures of wild life this fall and winter—also a deer. Good luck, hunters!... We will see you all at the Christmas party. We've always had a wonderful time. Let's make this one bigger and better yet.

Dry Rolling and Western Electric

by Nancy Harvey

Flash 1—Tale of Revenge: About a month ago Vishi Wisnioski was conversing with a friend, Betty Coulter and in the midst of this conversation Vishi got carried away and her actual score of about 400, for some unknown reason soared to 520! Betty, believing the story and being a friend of Vishi's, was overjoyed for her and she related the proposed score to many of her associates. A few of these associates, being bowlers, informed Betty that the score was a cause for dispute. Betty, on checking the scores in the paper, found to her dismay that the score was a little exaggerated. To get revenge, in still a friendly manner, Betty would fall silent whenever Vishi was around. This duration of silence lasted about three weeks. They are now speaking, but rarely is the subject of bowling brought into their friendly conversations. Question— which one was the joke on?

Flash 2—New Found Talent: It is the general opinion of her fellow workers that Dot Mellilo must be rehearsing for an appearance on the Ted Mack Amateur Hour. We've heard countless choruses of "O Sol O Mio" and we could say, "Dot, you are improving!" Rots of Ruck!

Flash 3—Welcome: We would like to welcome all the newcomers to our department. They are: James Blair, Ruth Maynard, Florence Dupre, Bruce Kirkpatrick and Alma Devio. We hope you all enjoy working with us.

Quote: Minds are like parachutes—they only function when open!

Small Orders

by Julia Desrosiers

Congratulations to Mr. & Mrs. Richard Critella on the birth of a daughter, Debbie, on October 5th... Happy anniversary to Mr. & Mrs. Claire Murphy. We wish you many, many more... Jeanette Konopka will celebrate her birthday on December 24th... The grandchildren and nieces and nephews are sure lucky with the beautiful knitting, that the grandmas and aunts are doing in this department... Everyone is so busy doing their Christmas shopping... We wish everyone a very happy holiday and a new year blessed with health and happiness... So long until next year.

Data Processing

by Roberta Quirk

We would like to welcome the two new girls to our office. They are Mary Finore and Minnie Wu. Hope you like working with us... Helen Kaiser spent one week of her vacation in Pennsylvania. Hope you had a good time, Helen... We would like to say happy birthday to Betty Maher and Hazel Sherman... We would also like to wish Harold Twitchell lots of luck on his new job. We are going to miss you, Harold... Joan Lampiasi has left work for awhile. Hope you will be back soon, Joan... Well, I guess that is all the news for this month... Keep punching, girls!

Incoming Inspection

by Alda Roy

We would like to wish David Foote, who has been out sick, a speedy recovery. We have made you an official member of "The Tonsils Out Club", Dave... "Mike the Gremlin" has invaded the office. By this I mean the strange noises coming from the steam pipes. We wish he would use a rubber hammer. The noise is driving us berserk... Congratulations are in order for Charles Bourdon who was recently made a supervisor in Incoming Inspection... While trying to contact a local supplier by phone, we mistakenly contacted a funeral parlor. When we asked for our party, the answer was, "I'm sorry they haven't brought him in yet?"... Yours truly was quite surprised the other morning. At 7:00 A.M. of course, the eyes are just barely open and one hardly expects to find Indians popping out of

ones pocketbook. But upon investigation it turned out to be a leftover feather from the Halloween Party which I attended attired as an Indian. And much to my surprise I received a prize for the most original.

FP Assembly

by Grace McConnell

This is the season when no one does too much and news items are scarce. Everyone is talking about winter and the busy holiday season we have ahead of us... Alice Soldati spent the week-end in Burlington, Vermont visiting her brother who was quite sick. We hope that he will soon recover... Another hospital patient was Jimmy Todd's mother who underwent surgery. We also send her our best wishes for a speedy recovery... We need a private investigator to solve the mystery of Lee Charbonneau's receiving a beautiful bouquet of flowers for six days in a row. The whole department was quite envious... Among the lucky ones enjoying vacations were: Dorothy Lewis who took day trips to Vermont and Connecticut to enjoy the beautiful Fall foliage... Marie Moruzzi visited for a few days with her daughter who is teaching at Hyannis on Cape Cod... Beatrice Morandi spent her vacation resting up after all the preparations for her sister's wedding... "Sunny" Cozzaglio had an enjoyable week motoring, shopping and eating. The rest of the time she spent at her uncle's farm... Rita Cooper had a week's vacation just relaxing at home and doing odd jobs.

Mary Moruzzi became a grandmother for the third time. She has a new grandson born at the North Adams Hospital. The baby's father is her son Carlos Moruzzi who lives in Williamstown... Well, I hope that you miss the Log news next month as the second "National" Log will be published in its place. In the meantime I will try to build up my news for January and make a longer and more interesting column... We wish to extend our greetings to Johanna Kayser who is retired and celebrating her birthday on December 10th. She is not with us physically but spiritually,

Machine Shop

by John Walsh

Mr. & Mrs. Henry Anderson celebrated their 43rd wedding anniversary on October 12th. Congratulations to you both!

Tantalum

by Dolores Shakar

A royal welcome—red carpet and all—goes to Catherine Sawyer, Betty Cota, Marion Scott, Agnes Fleming, Sarah Brown and John Shaker... We were sorry to see Al Deane leave us. We wish him all the luck in the world in his new venture. Lila Beaudette was lucky to travel to Washington, D. C. and while there toured the city with all its magnificent buildings and visited Mount Vernon. It must have been a wonderful trip... Congratulations are in order to Adeline Roy's two sons and Lillian Trimarchi's daughter as they just made their Confirmation.

We are glad to see Betty Johnson back with us after being out on sick leave... We hope by the time you read this that Phyllis Lapine's daughter will be out of the hospital and well again... Our bowlers, The Kingpins, are coming along real well for amateurs. Trouble is though, poor Phyllis Lapine seems to end up buying the treats for Dot Columbus every week. Someday the tide will turn. You just need a little more practice, Phyllis!... We always said the men with the white coats were coming, but we didn't think that they were staying for good. We look real professional. Pretty soon we'll be hearing, "Calling, Dr. Ross!"

You'd think we were in the Alps the way we hear all the yodeling, and then

we have a little echo in the corner from Mary Girard answering, "Ode-la-oh-o"!... A belated happy birthday to Adeline Roy, Mary Boudreau, Doretta Blanchard, and Pauline Perault whose birthdays were in October... Evelyn Prystas, Mary Ziaja, Agnes Fleming and Yours Truly will be celebrating in November, and Lillian Trimarchi, Betty Johnson, Lila Beaudette and John Shaker have December birthdays... If you saw two weird looking creatures on Halloween, they were harmless! It was only Dot Columbus and Phyllis Lapine going out for all the loot, but they were so scary that a certain person wouldn't let them in the door... Well, guess that is all. See you in January!

Centrifuge

by Harry Embry

Well Thanksgiving is just around the corner, and most of us are staying home this year. Your reporter and wife will have their children and grandchildren for Thanksgiving dinner... We extend our sympathy to Oliver Odell on the death of his mother.

Sproco Inventory Control

by Peggy Brule

The first snow flake has fallen, reminding us that the holiday season is fast approaching... We were sorry to say good-bye to John Roberts, but the welcome mat is always out to our Southern gentleman... We are pleased to welcome three lovely babies: Liza Marie, daughter of Mr. & Mrs. Casey Piekos; Donna Maria, daughter of Al and Maria Rysz; and Mark Christopher, son of Mr. & Mrs. Don Filiault. Such pretty names and such proud parents... We wonder why Carol O'Brien is shopping so diligently. Ronnie's birthday maybe? Judy Baker has a wonderful recipe for banana bread in case anyone is interested... Congratulations to Bev Little on her beautiful diamond. Her husband, Jimmy, must be very proud of her... Next month your reporter will have a little vacation as the "National" Log will be published... Hope you all were thankful for your blessings this year and that everyone had a happy Thanksgiving... So long until January.

Autometrics

by Clara Belleau

The gayest season of the year is here and we hope you all enjoy it to the fullest... Our Christmas Party will be held on December 15th at Pine Brook in Cheshire with about 40 persons attending. Our capable clerks, Diane Ferris and Verne Astorino are in charge of arrangements. Dinner and dancing will be part of the evening's entertainment... We've missed Lorreta Mattheus and Isabelle Mazinski who have been out because of illness. Hope everything is ok now, girls... We welcome to our department Katherine Dickie, Corinne Bush, Loretta James, Laura Roy and Fred Kolis... Happy Birthday to Ivonne Choquette, Isabelle Mazinski,

All ready for bed is little Brian O'Grady, 3 year old son of Miles O'Grady of Misc. Assembly and Parts Preparation on Marshall Street.

Andy Durocher, Carmen LaCasse, Julia Wolfrum and Kenny Davis... Also Happy Anniversary to Madeline Kaczowski.

Vacationing were Ivonne Choquette at home and Benny Oleskiewicz who went hunting... Edmund Lemanski has taken up the job of child-care and his son is getting so big and fat that carrying him around is getting Ed down. If anyone is interested, Doc Lemanski has the answers to all your questions... Larry Kupiec, our little man with more than enough pep gets around so fast he's everywhere at the same time. What makes Larry run?... Fred Rotolo, Lucky for short, has really outdone himself during the World Series. He was always on the winning side. Was it really fixed? Freddie?

Our actresses Jean Ferris (a deaf, berated, nurse) and Laury Roy (a 200 lb.) unhappy old maid gave an excellent performance in a play recently as members of the St. Francis Rosary Society. The talent scouts will hear of this!... We miss John Herzig, Richard Massey and Robert Kurley who have left us for other departments... Kenny Davis didn't enjoy the few tons of snowflakes that fell recently on the Mohawk Trail because he didn't put his car in the garage (after a wax job)—and who would have thought it was going to snow!... Merry Christmas and Happy New Year.

Field Engineering

by Sandy Isherwood

T he year has passed, the days grow cold, H e sends the winter like a cloak, A nd we look back at days gone by, E ver to be relived—they grow remote.

K eels are set for new horizons, Sails bloom full with jubilant winds, G rasses gathered, by 1960's reaper I n solitude lay - forgotten, like yesterday's sins. V isions form like puffy clouds, I mmease dreams, our future under takings, N o tears should fall for time gone by, G ive Thanks, you're blessed with living.

T he year has passed, we look ahead, I n days, memories still are lingering,

M any thoughts fill our time, days are busy indeed, E ven tho' - take time - give Thanks, you're blessed with living.

Bldg. No. 7 Offices

by Kay Mancini

Congratulations to Mr. & Mrs. James O'Neil who became the proud parents of a 7 lb. 14 oz. baby boy, Dennis James, on October 9th... We were all very surprised to hear that Sam Krouss had left the Material Control Department to undertake a new position in the Factory Accounting Department. We'd like to take this opportunity to wish Sam the best

Little Bobby Donnelly, Jr. is the nephew of Midge Patenaude of Employee Relations and Gladys Dubie of Filter Measurement Service.

Shown on their wedding day are Robert LeFaver and Lorrene O'Brien. From left to right are: Phillip Lanoue; the groom and the bride, daughter of Rosanna of Sandia; Bruno Walczak, husband of Leona of Western Electric; Jeannette Dumas; Roland Perras and Richard Lanoue.

Ruth Edmonds of Ceramics is proud of her foursome. They are 1 yr. old twins, Tracy and Craig; Robin, 3½; and Gordon, 1½. They are the grandchildren of Al Brouillet.

of luck on his new job. Charlie Ryan has now taken over the responsibilities of the Material Control Department and we would like to congratulate him on his promotion to department head. Mr. & Mrs. Earl Fredericks enjoyed a pleasant two week vacation in Florida last month. . . . Congratulations to Mary Meranti and John Aldrich who were married in St. Anthony's Church on October 15th. . . . We would also like to welcome Vern Durocher, a new member of the QAR staff.

Filters

by Ruth Haskins & Alice Monette

Marie Lemoine, Frances Dami and Bertha Roy attended the Whist Party at the Immaculate Conception Church. This time Frances won a pillow. Last month Bertha came home with a lamp and a five dollar award. . . . Marie Lemoine, Frances Dami, Mabel O'Grady, Ruth Haskins, Gillie Moore, Jean Maselli and Alice Monette attended the wedding of Carol Lazarczyk, daughter of Rose. The bride and her party looked lovely and we think Rose looked lovely enough to be a bride herself. . . . George Lord wanted to help at home recently, but we think his wife will discourage his efforts in the future. He used spray starch instead of Jet Bon Ami to do the windows. . . . Bertha Roy and her husband went to Boston to see Ben Hur. She tells us the famous movie will be closing there the latter part of November. So far she is the only one in Filters we know of who has seen it. The rest of us had better hurry. . . . Best wishes and a speedy recovery to Grace Sherry who had an emergency appendectomy. It sure was quick Grace!

FP Cover Assembly and Ovens

by Edith Fields

Well here it is hunting season again. We have one big game hunter, Gilbert Harris, who is planning a hunting trip. What kind of game will you bring home, Gil? Good luck anyway.

be nice for them to be back with their family and friends. The department wishes Charles and Chiela the best of luck for you are surely missed.

Alma Haley can look back and remember when her daughter took a jet to Germany and is still living there in Augsburg. . . . Nina Buda, our clerk, will remember the vacation she had and I know Bob Bouchard, our foreman, will remember too. . . . Memories of Fall will linger for a long time as will the memories of our general supervisor, Ed Newman, of the long hours spent in the turnip patch. . . . Most of us remember how happy George Morse was to return to our department. . . . I know that everyone wishes everyone else a very happy holiday season.

Shipping Department

by Cecile Trudeau

Philip B. Talarico was elected Vice-President of the Sprague Electric Management Club at their regular monthly meeting at Taconic Park, Williamstown on November 2nd. . . . Alfred Bourdon bought a new Chevrolet Impala (white convertible) while on his vacation. . . . Gerald Cronin and George Denning enjoyed vacations recently. . . . Betty O'Dell's two young daughters recently underwent tonsillectomies at Hillcrest Hospital in Pittsfield. . . . Emma Jobin and her husband Peter have returned from Atlanta, Georgia where they attended the National Management Convention. . . . We all miss Gus Jammallo who has been called back to his own department (Western Electric). . . . Everyone had a good time at the Log Banquet. The food was good, the entertainment was gay and the orchestra was just grand for dancing.

30-40D Line

by Rita McClinton

With a great deal of regret I am writing my last column for the 40D Line. As you all probably know, I have transferred to Autometrics and therefore will be unable to write for you. . . . When Gerry LaFramboise came back from lunch with one red rose for Yvonne Nadeau, Ralph Lewis really sat up and took notice. So far as I know, Ralph hasn't topped Gerry's romantic gesture, but I'm sure he's working on it. Don't worry, Ralph, I'm sure Gerry's rose was only a peace offering, as Yvonne and he have had many a difference of opinion. . . . Our bowling season is well underway now, but so far no one has topped Phyllis Schmidt's high triple. I'm sure you'll take top prize, Phyllis. It's good to have you back Bea Brown. We all knew your 'vacation' would be a short one. . . . Once again we have to wish Luisa Merante a speedy recovery. Keep up your spirits Luisa. We're all pulling for you.

That's it, gang! I hope someone picks up the column where I leave off. I love my new job, but miss the old gang. . . . See you all at the Christmas party. . . . Happy Thanksgiving, Merry Christmas and Happy New Year!

Ceramics

by Leo Cyr

The beautiful colors of fall have passed, but not the memory of the good times and of our Foliage Parade. . . . One proud grandmother of our department, Nettie Murphy, can remember that her granddaughter, Cheryl Murphy, was Queen of the Fall Festival. . . . Ernie Gamache can remember his healing days from his operation at which time we were all wishing him well. . . . We can all remember the fury of the girls in the air-conditioned room when a Nixon fan walked in. We now know who was right! . . . We also felt bad for the girls who were laid off. Their stay was short but pleasant and we hope they will return soon. . . . By this time Charles Delott of the Lab, and a good friend to all, has left us. He and his wife, Chiela, moved back to their original home in Chicago. Their little dog, Butch, is also with them. Charles' wife is expecting in January so it will

Helen Scarbo—My cat—well fed and able to sleep all day.

Helen Foote—Right now I'd like to be Kennedy.

John Carey—No one—I'm having fun.

Fashion news finds Hazel Goddard wearing purple—very, very attractive.

Ora Levesque has that new slim trim look after a week on a liquid diet.

Getting up in this world are Lucy Sanecki and Helen Harvey. Moving from the basement upstairs with us, there's no telling how high they will go with all this talk of putting women into space first. Stay with us girls. It's so nice having you. . . . To the unforgettable four who were laid off—Beatrice Gibeau, Dot Baker, Florence Saulnier and Irene Serventi, we send a big hello and hope you will be back with us real soon. . . . We're glad to hear that Norma Skorupski's husband is on the mend after a bout with illness. . . . If anyone would like to give their child a nice pet for Xmas, Janet Haas has just the one—a real live alligator. Now Janet, would you deprive that poor alligator of that nice swimming pool you built during the summer? So what if it is a little crowded if he gets to be seven feet long. . . . Merry Xmas to you all!

SPD Offices

by Nicky Utman

Our biggest news item this month is the engagement and marriage of our Gail Hassom and Garith Bigart. They were married on November 19th. Our best wishes to both of you. . . . Judy Sukek was absent recently for a short stay in the hospital. Didn't want those tonsils anyhow, huh, Judy? . . . John Anderson is back from his hunting vacation—just what were you hunting for, John? . . . Frank Torchia recently moved into his new home as did Nicky Utman. Isn't it amazing how much "stuff" you accumulate.

Pulse Transformers

by Lucille Mineau

Hi everyone! We welcome Dot Sprague, Virginia Cusson, Midge Valotta and Vinnie Burdick to our department. Hope you enjoy working with us. . . . Good-bye to Amelia Lewis who has left us for the Potting Department. We wish you lots of luck, and we'll miss you. . . . We're glad to see Ida Chislon back to work. Glad you're feeling better. . . . We wish a speedy recovery to Eileen Koczela who is out sick. Hope you will be back with us soon. . . . Theresa Phaneuf is out on leave waiting for a new member of her household. . . . Congratulations to Anne St. Cyr upon the arrival of her new granddaughter, Patti-Jo. . . . The Jetnettes are still holding their own for the booby prize. . . . Mary Senecal and Elinor Zagorski have improved in their bowling now that they have learned to throw three balls instead of four. Our team is really improving, but so are the other teams (as we have found out).

Since Barbara Rondeau has been going to the hairdressing school in Pittsfield, the girls in this department are hoping they will look real glamorous soon. How about Barb? . . . By the looks of the stores downtown, it's about time we started our Christmas shopping. . . . Since we won't have another Log until after Christmas, everyone in this department wishes everyone in their department a Happy Thanksgiving—a Merry Christmas and a Happy New Year. I guess I'll go and order my Christmas tree.

Our deepest sympathy to Mae Goodrich on the death of her brother-in-law, Patrolman William Dempsey.

Magnetic Finishing

by Helen Burdick

Hi everyone! Ray Blair won a turkey and is starting a turkey farm (he doesn't know what else to do with a live turkey) and is taking orders for next Thanksgiving!!!. . . . Buzz John-drow is quite the athlete—he's active

in football, baseball, ten-pin and candlepin bowling, water skiing and snow skiing—and he has a new game which he hasn't told us all about yet—it has something to do with a bucket, I guess. . . . Ray has told us that Maude Convery's crying towel is now a nightmare!!!. . . . Terry and Jack Grady are the proud owners of a new Chevy—pretty nice! . . . Why is Marion Parrino always on her knees while at work? Do you really worship your job that much, Marion?

We have some tail-end vacationers: Jennie Matranga spent some time in New York and the rest at home. . . . Rena Smith divided her time between Berkshire Downs and home. . . . Helen Phaneuf enjoyed herself moving. . . . Good-bys were said to Bob Baitol who has left us to move to Long Island. . . . Mike Mandar says Mrs. "Goof" is a very good teacher—English teacher, Mike? . . . The Potters and your reporter enjoyed a Halloween dinner recently and found out that Clara Wilk makes delicious fudge; Helen Phaneuf makes stuffed cabbage rolls that are out of this world; and if you want a terrific chocolate cake, see Bertha Oltsch.

We would like to wish a speedy recovery to Marion Parrino's sister-in-law who is seriously ill. . . . We have a list started for Santa all ready: Rena Smith and Helen Kawa would like roller skates; George Champagne—a clipboard; and Helen Murphy—a carrier pigeon. I'm sure they can all find very good use for these things!! . . . I wish to thank whoever was responsible for my award at the Log banquet. It really stunned me for awhile—many thanks and I'll try to send in better reports. . . . The banquet gets better each year and it was a job well done, and I think everyone who attended will agree with me on that. The committee should receive a vote of thanks from all of us. . . . See you next year!

Magnetic Samples

by Shirley Noring

A warm welcome back to Evangeline Dupuis, Lucy Barone and Sally Bishop who have been out on lengthy leaves. . . . The first snowfall of the season and no one would believe Jane Martin when she told how much snow fell on the Mohawk Trail—we wonder why! So Jane, to prove her story, brought us a snowball. . . . Janice Richards was awakened very early the other A.M. by her young son, David, who was calling, "Mommy, mommy, look what I've got." There stood David with his mother's glasses in both hands—half in each hand!

Thanksgiving is behind us now. And Christmas is on its way. The Sample Department wishes all A Merry Christmas Day.

This little smiler is Kim Susan Barone, daughter of Lucy of Magnetic Samples and George of Control Lab.

Jacqueline Brooks of Washington, D. C. is the granddaughter of Henry and Toni Brooks. Toni works in Prokar and Henry in Dry Rolling.

Networks

by Dolores Davis

Evelyn Morton spent her vacation in Washington, D. C., Virginia and Maryland. She assures us that she didn't miss a tourist spot in the three states... We all extend a hearty welcome to Mary DiLegio and Stacia Meczyworski. We hope you'll like it here... Rose and Cas Walczak became proud grandparents again. Their daughter, Mrs. Joseph Bissailon had a baby boy... Mr. & Mrs. Harry Haddad also joined the ranks of new grandparents with a granddaughter... Your reporter returned to work after a month of loafing in Hawaii.

Industrial Oils Office

by Florence Clough

Now that the Log banquet is a thing of the past, your reporter can settle down to a long, hard winter of reporting. Incidentally, the banquet was a huge success and everyone is no doubt looking forward to next year's... Well, back to reporting the news: Lucille Heiprich spent a few days in the hospital having X-rays, but she received a clean bill of health and is back to work... Now we have Marie Dargie in the hospital and hope that she receives the same news. We miss you and your stories at rest period, Marie, and Bonnie Bryce is lost without you and your wit... We are glad to have Sandy Carlow back to work after a bout with a hard cold... We would like to take this opportunity to offer our sympathy to Gene Baker on the sudden death of his father... Peter Andognini enjoyed another week of his vacation at home... So long until next time!

Ind. Oils Final Assembly

by Dorothy Shea

Mary Marchio baked a luscious decorated Halloween cake. Her niece had a party. Anyone having a party or social, contact Mary—she'll be glad to oblige. That's our Mary... We like your hairdo, Georgimae Joy. It's very becoming... Louis Lillie has been looking chipper lately—and also he is his cheerful self again. You can't keep a good man down, so we say!... Mary Provost is on sick leave. Hope you are well soon 'Mamie'... When it is starting to seem dull around our department, Chuck Connors usually comes through with something. This time we have a picture taken in 1875 of the Brown Street plant. His late aunt was the owner... Dot DeSanty and her husband attended the Military Ball in Adams. She looked very lovely... Steve Baldyga is wearing a new jacket—the latest apparel for hunters... Steve, Bill Drury, Ernie Rondeau, Tony Tovani and Paul Risi are the ardent participants in the Sport of Kings.

High Quality Coolers

by Evelyn Jones

Busy, busy, busy! Everyone is making pies and talking about their favorite turkey stuffing. Hope you all make out okay and have Happy

Holidays... Hate to be the one to remind you, BUT you had better be getting on with your Christmas shopping... Everybody happy with the election? Well, at least we can all settle down for another four years now... We had a few late vacationists. Alice Lunney, Marie Martel and Anita Crescembini all rested at home. ... Connie and Roy Bush have moved into a new home on Luce Road in Williamstown. Hope you will find both health and happiness there... Beware all you drivers! Gerry Giusti has her driving license. Looks as though the department is becoming more mechanized each day—more people driving—less people walking. There won't be any sport to driving—no pedestrians to dodge... Congratulations to Marie Martel who has just become the very proud grandmother of a bouncing baby boy.

One upon a time a little bird came to live at the Spooner house. He was a very sad little bird and didn't sing very much. Mama and Papa and all the little Spooners fed him each day. They even bought vitamins so that he would sing. When he was nice and fat and singing gayly came the villain. The great big ole cat liked little birds—especially for brunch. Alas that is the sad story of the singing bird... Thank you for the wonderful time at the Log banquet... Since I won't be with you until after the New Year, I'd like to wish each and everyone a very Merry Christmas.

Metal Clad Assembly

by Lilian Gainer

Your Log reporter would like to relate the tale of the very enjoyable and food filling time she had at the annual Log banquet held on October 13th at the Taconic Park Restaurant in Williamstown. The program featured entertainment, dancing to a melodic orchestra, fun and good fellowship—not to mention the menu and sundry other eatables. I enjoyed the company, as well as the transportation facilities of another Log reporter—friend Marion Andrews of the High Reliability department. I do think that the very capable committee which served to make this banquet a success should be justly commended.

Vacations have been holding forth once more with Pauline Barrett enjoying a week at home getting a well earned rest... Jennie Thompson and family traveled to Ottawa, Kansas to pay a visit to son Fred who is a student at Ottawa University. By the way, that was quite a going-away gift Jennie received from Sue Pollone... Helen Baxter took a week of her vacation mostly with the idea of resting, but with short trips and catching up on her social visits. We wonder just how much she did get to take it easy... At this time may we express our happiness on having Marion Marceau and Helen Baxter back with us after their recent hospitalization... On October 12th Betty Allen underwent surgery at the local hospital and we wish to extend our good wishes to her and also our hope for a speedy recovery.

Welcome to our new inspector, Helen Bryce, or should we say that an old friend returns... Grace Dupuis returned from her three weeks' vacation with tales of her enjoyable visit to her sister, June, and brother-in-law, Bill, who reside in Cleveland, Ohio. She and husband Dolph also visited with Donald and Lisa Trahan, son and daughter-in-law of Grace, at the University of Pittsburgh. They also took in the sights of Washington, D. C. before returning home... If you hear someone yell for supervisor, George Daub, in mournful tones,

SPRAGUE ELECTRIC LOG

you'll know that Vi Miller has gotten another condenser locked in the crimping machine... Maria Zelazik is still making trips to the eye specialist in Boston, and while that ordeal is none too pleasant, she does enjoy the pleasant visit with her son, Henry, and newly acquired daughter-in-law, Judy, who live in Cambridge. Henry is associated in a missile project and Maria is very happy to relate that he wishes to further his education in the hopes of receiving a doctorate. ... When you hear a burst of laughter in the vicinity of the welding machines, you can just bet that our Mary Cozzaglio is up to some hijinks again... Helen Baxter had quite a treat recently when her son, Rev. Harry N. Baxter, and family of Philadelphia came for a few days visit. Rev. Baxter is the pastor of the Baptist Lower Province Church in Philadelphia... What's this we hear—due to her loyal and patient attendance to all the farm animals our own Claire Poirot was chosen the NUMBER ONE farmer of the town of Florida for 1960. Congratulations should be forthcoming from the Department of Agriculture.

We asked Mary Paoletti if she had some news and it looked to us as though she was trying to trap Barbara Campedelli into some mirthful Log item. If you receive the answer—well, I don't know right now, but I'll think of something good... You can rest assured that your Log reporter has just asked Alice Lavariere for some Log news... It seems as though Sue Pollone is getting a lot of practice in her role of substitute nurse as Helen Lefebvre can testify on the day she received a solder burn... Bruna Buletti is so very proud of her four daughters and has quite an album which displays pictures of them throughout the years... Sue Pollone spent Thanksgiving day with her brother Dom and his family in Southbridge, Mass., and the biggest enjoyment of all for Sue was seeing her two nephews, Raymond and Ronnie playing in the football game on the team of their school, Mary Wells High School. Her niece, Roberta, is a drum majorette... Lastly we wish to convey our congratulations to the following who on November 2nd received their 10 year pins: Millie Curtis, Maria Zelazik, Clyde and Maria MacDonald, Janina Dymek, Francis Harrington, Helen Korzenstorfer, Rose Blair, Edie Noel, Angie Nassif, Jennie Thompson, Jennie Burdick, Leona Millard, Alice Lavariere and Claire Poirot.

This will be our last Log report until January 1961 due to the Company's second yearly report coming out in December, so we wish one and all a hearty and pleasant Thanksgiving, a Happy New Year, and between these two holidays a Merry and Happy Christmas with the deeply religious meaning prevailing and a prayer for world peace and understanding.

Metal Clad Finish

by Pat Roy and Wanda Wandrei

Walking through this department during our lunch period we find many of the girls busy knitting which reminds us that Christmas isn't too far away... Congratulations are in store for Sophia Embry who received \$15.00 for her award winning suggestion, and also to Eddie LaBonte who was the recipient of a \$25 award... Will Girard and his family spent Sunday, October 31, at Santa Claus Land... Your reporters, Pat and Wanda, report a most enjoyable time at the Log banquet... We would like to take this opportunity to express our sympathy to Vi Scott on the recent death of her grandmother... Ann Patenaude plans to spend Thanksgiving day with her sons and their families in Indiana.

Anna Lamoureux enjoyed a week's vacation resting at home... Blanche Cyr accompanied by her sister-in-law, Mrs. William Formhals, flew to Puerto Rico where they visited Mrs. Formhals son, Major Lawrence Laliberte, and family... Those who received their ten year pins are: Ernie Bradley, Johanna Bruggeman, Blanche Cyr, Annie Davison, Gladys Dyndor, Frances Filip, Catherine Godek, Waldemar Godek, Elton Houghtaling, Pearl McCrea, Alice Nichols, Margaret O'Neil, Frances Roy, Margaret Sebastian, Lina Shepard, Bertrand Sherman, Helen Sikora, Michael Stefanik, Maude Sullivan, Agnes Vidal and Yvonne Davison.

Misc. Papers

by Doris Richards

Well, here it is Log time again and now that vacations are about over for awhile, it is difficult to know what to write about. What with work being slow and not much doing it leaves us at a loss... I hope you had the privilege that I had of seeing some of our beauty of autumn which is so very beautiful at this time of year. The foliage is really something on our surrounding hills and really shows to us the handiwork of God... Emma Busby has been a patient once again at the North Adams Hospital. We hope by this time that things are all straightened out, Emma, and that you are feeling much better.

John Williams, brother of Doris Richards, has been a patient once again at the Veteran's Hospital in Albany. After being on a critical list for a few days, he made a rapid recovery and was able to return home... On lay off at this time are Agnes Fitzgerald, Lillian Peck, Theresa Garofano, Rose Lampiasi, Dorothy Marlowe, Irene Perreault and Eleanor Charbonneau. This leaves our room like a morgue, girls, but we hope it won't be for too long... Best wishes for a Happy Thanksgiving to each of you.

Check Inspection

by Walt Gould

Helen Bryce, our Scotch pedlar, is at it again—everything from shoe laces to brushes... George Senecal and his wife have worked out a system to beat the trick or treaters... Sam Unsworth went to Florida for a quick tan... Della Garroway has joined the landed gentry—bought a house in Adams... Bea Pierce is still limping but feeling better although not quite ready to run races yet... With Christmas just around the corner there still hasn't been any talk of a Check Inspection party. We'll probably have to get Cecil Mikuszewski, the party girl, back on the job.

Phyllis Parker is having quite a time preparing and eating wild game... Marilyn 'Monroe' Daub is trying to work out a part time work schedule. Forty hours all in one week is really too much... We wonder what Alice Senecal will bring in now that the flowers have been killed... Our foreman, Hank Testa, spent a tedious

evening carting home the trick or treat loot bags for his children... Harold Weyers is finally sporting a phone. Call 51—if George answers—forget it... Dick Maynard spends all his spare time with his homework, and we mean it. He really uses books... Your reporter had a wonderful time at the Log banquet and is now waiting patiently for a week in the deep woods, deer hunting.

High Reliability

by Marion Andrews

We would like to welcome Jane Pellerin and Frances Miles to our department. The girls have been working in the Spray Room... At this time we have had some good laughs and arguments over the election. It sure is wonderful to be in a free country where everyone can express their views. It seems each day someone was trying to outdo someone else with their political buttons. Evelyn Robinson had the girls on her line wearing Kennedy earrings which she made up... Alice Carpenter flew down to Milwaukee, Wisconsin to see her new granddaughter, Kathy Ann Harrison. Alice sure was a proud grandmother... Marie Dean took a week to go visit her daughter PFC Judith Dean at Fort Belvoir, Virginia. Judith is in the Medical Department and works at Dewitt Army Hospital. Marie visited Mount Vernon on the way. While at Fort Belvoir, Marie and her grandson, James St. Dennis, attended a party given by the WAC Med. Det. Judith then returned home for a 10 day leave.

Marion Wabing is back to work after a month's vacation in California visiting her son and daughter-in-law and her three grandchildren. It was a very happy vacation for all as it was the first time in six years she had seen her son, Robert, since he left to make his home in California. It was also the first time she met her daughter-in-law and her three grandchildren. While there she saw many beautiful places such as Pasadena, Temple City, and Hollywood. Marion also dined at the famous "Farmer's

Gina Marie and Joanne Sebastian are the children of Mr. and Mrs. John Sebastian and granddaughters of Margaret Sebastian of Metal Clad Finish.

Young Frank and Gene Sebastian are the sons of Mr. and Mrs. Casimo Sebastian and also grandsons of Margaret Sebastian. No wonder she is a proud grandmother!

Little Kellie Ann is the daughter of Mr. and Mrs. Frank Gassett, Jr. of Hartford, Conn. and granddaughter of Emma Vivori of FP Assembly and Frank Gassett, Foreman of FP Cover Assembly and Ovens.

Market" and also saw the Rose Bowl and San Anita Race Track. On her way to California she went through many beautiful cities such as Omaha, Salt Lake City, Las Vegas and others. It was a wonderful trip and she is already talking about another trip. She brought home some beautiful colored pictures of California and her grandchildren.

Ronnie Sobon is looking forward to being a grandmother in the spring. We would like to wish Danny Levesque belated wedding and birthday congratulations... also belated birthday wishes to Marcy Miller. Marcy took her two weeks' vacation recently and did some sewing at home and took a few trips... It was good to see Ted Fitzgerald back to work after a short lay off.

Now that Thanksgiving is near, if anyone is looking for a good pumpkin pie recipe, please ask Rita Sorel. I don't think Rita will ever live that one down!!... Dot Davis was in the hospital and is now out. We are glad to hear that it wasn't anything serious... I think everyone will be glad when our room is finished. They are sure doing a complete changeover. It will be nice when it is done, but right now it is quite confusing. We don't know what door to go in and out of. Time will tell!... Yours truly, Marion Andrews, sure had a grand time recently when she and her husband supervised the Senior High Fellowship of the First Baptist Church and their friends on a Hay Ride. If you want to keep young you should work with young people. It's wonderful!

Edith Jones recently had company from Maryland.... Emma Alongi vacationed at home doing her Fall cleaning... Aline Giroux couldn't figure out why everyone was stopping at her place one day and saying, "How". It seems someone had put a large feather in her hair... Seeing that we will not have any Log news for the month of December because of the second printing of the "National" Log, I would like to wish everyone a Merry Christmas and a Prosperous New Year!

Show at the time of her Confirmation on October 24th is Patricia Sanecki, daughter of Lucy and Stanley Sanecki. Lucy works in Pre-Assembly on Union Street.

High Reliability Test & Ship by Evelyn Luczynski

Hello again everybody! Hope you all are enjoying this brisk fall weather and looking forward to the holidays which seem so close... I am sorry to report three lay offs in this department. We had to say good-bye temporarily to Thelma Bissailon, 'Tootie' Choquette and Frances Laghi. Hope you soon will be back with us. We miss you... The girls in this department took an evening off recently and went to supper at the Hob Nob on the Trail. Several of our former co-workers attended. They were Dorothy Saulnier, Ruth Kelly, Thelma Bissailon, 'Tootie' Choquette, Loretta James, Shirley Brown and Laurette Krok. It sure was wonderful to see you all again and needless to say we had a very enjoyable reunion... Valerie Piantoni was hostess at a double anniversary party given in honor of her mother and father, Mr. and Mrs. Andrew Wolkowicz, who celebrated their 30th wedding anniversary, and her sister and brother-in-law, Mr. and Mrs. Louis Segala, who celebrated their 4th. You must have been very tired after all that celebration, Valerie.

Our department is presently undergoing complete remodeling. We have been trying to keep out of the way of carpenters, electricians, painters, plumbers, etc. for the past several weeks. It certainly is going to be quiet around here when everything is finished... Anyone wanting to know about a new piece of machinery being added, just ask Helen Pietras about "The Callahan". She has the highest seniority on it and we think she does just fine on it... Yours truly attended the annual Log banquet held at Taconic Park and had a wonderful time... See you all soon!

High Reliability (Nights) by Janet Maher

Hi, girls! Halloween is over and the girls have all settled down to wait for old Saint Nick... Hope you all had a very nice Thanksgiving. OK girls, back on your diets... Two of the girls were surprised with cakes — Thelma Barber for her 25th anniversary and

Bena Michaels for her 30th anniversary. Hope you both have many, many more. We enjoyed the cake very much... We see that Thelma Barber has a '56 Ford. It's real nice, Thelma. By the way what would you think of a person complaining about the air conditioner being shut off when all the time they have been removed from the room. I don't know, Thelma... Two of the girls had a real surprise the other day. They had an audience to watch their act — right Carol and Olga! It's too bad Olga saw him because if she hadn't it would have been the show of the year. More fun, hey girls!

Ernest (Zeke) Goddard has had his two week's vacation and did nothing but hunt and rest (we think). By the way Zeke did you miss your degrader? You were missed by more than one person... Joe has had his vacation too. We know he enjoyed every minute of it. Did you miss us, Joe? We missed you and your whip... We'd like to welcome back Shirley Lesniak who has been out on leave. You're looking great, Shirly. By the way where are all the pictures of your beautiful baby? We've heard she's a doll. We're glad to have you back with us... Rita has been all smiles lately. Can you blame her, girls? You look very nice. Keep smiling, it's very becoming.

We girls tried a frozen pie the other day. It was very good, wouldn't you say? Next time we'll make sure they're ready for supper — right, girls?... Everyone is getting ready for Christmas. All you hear is what I bought today or what will I get for so and so. More fun, hey gang... Well I'll close for this year wishing one and all a very Merry Christmas and a very, very Happy New Year... Keep smiling and we'll see you all next year. Remember: Happiness is not received — just given.

Bathtub Assembly

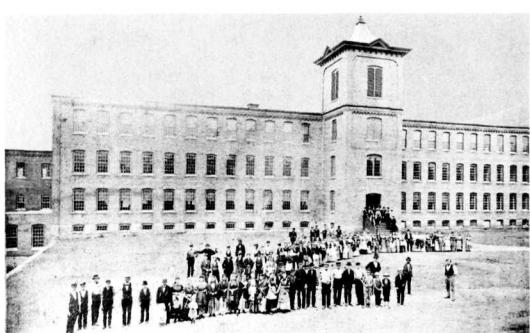

by Jessie Meczywir

First I want to take this opportunity to express my thanks to the Log Committee for the marvelous entertainment and delicious dinner given the Log reporters on October 13th at Taconic Park... The last one to take her vacation was Connie Boschetti and guess where she is spending it — none other than sunny Florida. How lucky can you be?... We heard the other day that Mildred Sniezek wanted to please her husband — so as a special treat she gave him a can of fruit for his lunch. What someone forgot to tell her was that you can't open a can with a potato peeler... Since this is our last edition for the year, I want to take this opportunity to say Merry Christmas and Happy New Year to all.

Plating

by Joe Pilling

The World Series is over and everyone here is happy with the results. Pardon me, everyone except Loren Estes who alternated between joy and gloom and ended up with the latter. Now he's stealing the cry of Red Sox fans ("wait until next year")... Mike Becker is spending his vacation hunting deer in Nova Scotia. Last year he bagged two... The news has slowed down as several of our gang are transferred to other rooms. Our loss is their gain... Loren Estes has a new way to hunt deer. He hit one with his truck, but the deer got away. It didn't help the truck any though... Our star bowler, John Murach, hasn't done any bowling since Loren Estes beat him recently. He says he can't afford it... I wonder how Al Chalifoux and Loren Estes are going to work in the same corner? When they get together there isn't much room left for anything else... What would happen if Howie Isherwood ever contracted laryngitis?

Long before Sprague Electric Company was even thought of, this is how the Brown Street Plant looked. In 1875, when this picture was taken, this was the Johnson Manufacturing Company.

Social Club of Former 645-655 Has Party

by retired reporter Jennie Gareau

The Social Club of Departments 645 and 655 made up of Sprague employees and retirees held another of their meetings at Taconic Park Restaurant in the form of a Halloween Party with Doris Gaudette, Mary Marra and Esther Poplaski in charge. The dining room and tables were prettily decorated with Autumn flowers, pumpkins, black cats, etc. Prizes were won by Bernie Jones for her witch costume, Lill Goff as a Japanese dumma and Delphine Regaoli as a cowboy. Ceil Shanahan was a very lively ghost and Doris as an Indian maid had a lot of trouble with her head feather. Eddie Roy is quite the party lady — two in one day. She attended a birthday dinner at the Golden Age and ours that night. Keep going, girl, that's what keeps you young.

Edna Maher and her Tom are going here and there and keeping busy with the Red Cross and their own good times. Happy retirement to them!... Theresa Burro is on the lay off list and looks fine. Hope you will be called back soon. It was good to see you so happy... 'Dolly' Rowett has a lovely healthy baby girl named Karen, and are her daddy, Reggie, and brother David happy she is here!

... Stacia Meczywir has a new car. Good luck and we're so glad the 'pigs' are still whole. Happy riding.

... Laura Benoit has added a few pounds to her weight — and on her it looks good — and she didn't eat lobster either.

We have a couple of school kids in the Club. Vi Bona and Bob Barbuto could not be with us because of classes and we did miss them. Hope you get good marks in your studies... Norma Skorupski was absent due to Al's serious illness. We hope you soon have him home, hale and hearty... Maude Crews was having dental troubles, but we hope she'll be ok for the next party... Olive Crandall has been in a Boston hospital. She was sent a quilted robe with our best wishes for a speedy recovery... We also sent Frances Kordana, R.N., a former Log reporter, a gift in honor of her approaching marriage on the return of the groom-to-be from the Far East. Waiting can be so nerve wracking, eh Fran. At this time I would like to again say "thanks" to Fran for her kindness to my husband during his stay at the P.G.H. She was wonderful!

Mary Farinon's son, Eddie (Fiacre), is in a Boston hospital and we pray that he will soon be home... Our thanks to Mary Marra and Doris Gaudette for a very good time. Their arrangements for the party were excellent... Vi Levesque is now planning for the holidays. She really is Santa Claus as she has only 22 grandchildren to buy for. Lucky, Vi!... It sure was nice to have Adrian Darling and Dan Donovan with us. Who knows but maybe at some party we will also have Norman Chenail... James Boner, Evelyn Prystas and Ceil Shanahan are the committee in charge of our next meeting at the Elwah Pines in June and all former co-workers, day or night shift, are invited to join us. We would be glad to have you. Please contact any of the Club members and they will be glad to give you name and phone number to Jim, Evelyn or Ceil. The more the merrier!... Have a Happy Thanksgiving everyone!

Urban Renewal

(Continued from page 1)

in the laboratory area will be a number of ultra-clean, temperature and humidity controlled rooms for critical work. Parking areas are planned around the building.

The basic details for the 23 page sales agreement had been worked out by June 1959, and the signing represented months of red tape cutting. The Federal Housing and Home Finance Agency had held up final approval because of technicalities. The sale price was 70 cents per square foot. These two parcels are the first major pieces of urban renewal land to reach the contract stage. Arrangements for the purchase of the other large parcel of land by the Adams Super Markets are still not complete.

Transistor Division

(Continued from page 1)

corporate basis in several areas. They are the areas of basic research; overall employee, industrial and community relations; payroll; factory and general accounting; legal, patents and contracts; purchasing and the like.

The Concord plant was originally started in 1956 with a building containing 32,000 square feet of manufacturing space. Since that time three additions have increased the manufacturing space to 78,000 square feet. Two new products have accounted for this phenomenal growth—solid tantalum capacitors and electro-chemical switching transistors. The plant presently employs over 800 persons.

In July of 1956 Mr. Jesse Ault was named General Manager of the newly created Concord plant. Prior to joining Sprague Electric, Mr. Ault had been associated with the Western Electric Company since World War I. From 1943 until his retirement in 1955, due to Western Electric's compulsory retirement system, he had been responsible for some 4,200 employees of Western Electric's Massachusetts operations.

Mr. Robert Parrish was named to succeed Mr. Ault upon the latter's retirement from Sprague Electric on March 1, 1960. Mr. Parrish was transferred to the Concord plant as Factory Manager of Transistor Manufacturing in July of 1959. Previously he was Factory Manager of the Ashe County, North Carolina plant from the date of its establishment in 1953 until his transfer to Concord. He has a wide range of experience in industry, beginning in 1938 with the Tennessee Valley Authority where he served as a Development Engineer. In 1940 he joined the Engineering Department of Merck and Company, Rahway, New Jersey; and three years later was loaned to the Kellex Corporation of New York for design work on the Manhattan Project which resulted in creation of the first atomic bombs. He later transferred to Oak Ridge, Tennessee as an Area Supervisor with the Carbide and Carbon Chemicals Company. In 1945 he joined the Abbott Laboratories, Inc. as a Senior Processing Engineer, a position he held for eight years.

The Log Turns Its Pages Back to November, 1940

Everyone in America is in a hurry for our defense program to get started. But, because this is a Mechanized War, defense does not start with a tank or airplane rolling out of the factory. It begins with the manufacture of the millions of mechanical parts that go to make up the finished engine of war.

Our program at Sprague is well started. We are now filling a recently granted government order and expect to start soon a United States Government gas mask order.

"Exceeding our fondest expectations" was the expression of the treasurer of the Credit Union when total receipts reached \$3,127.48 (August 1960 assets reached the \$1,000,000 mark).

Sales Field Engineering Tour

(Continued from page 1)

Also participating, on a selective basis, in the tour were Samuel Church, Edward Geissler and James Mathews, all Digital Product Specialists of the Special Products Division, North Adams; Richard Morse, Field Engineer, North Adams, George Norman, Manager of the new Florida Sales Office; and others representing Systems and Procedures, Industrial Dynamics and Research and Engineering.

During the three week period the group listened to discussions by Company officials, major department heads, representatives of Quality Assurance and Reliability; manufacturing; Employee and Community Relations; Sales; and Research and Engineering. Topics discussed covered a wide range of the Company's interests, from the Company's growth and organization through others such as product history; application and trend; sales procedures; industrial dynamics; individual product lectures and theory; advertising and sales promotion; and employee and community relations. Included in the program were ten evening discussion sessions dealing with specialized areas of the Company's operations. Tours of related manufacturing and engineering areas were appropriately spaced among the various lectures. These tours were conducted through the four plants—Marshall, Brown, Union and Beaver, here in North Adams.

In addition the group toured the facilities at the Bennington Plant, Bennington, Vermont; Rock of Ages Capacitors, Inc., Barre, Vermont; Concord Plant, Concord, New Hampshire; and the Nashua Plant, Nashua, New Hampshire. Here again discussions and tours were conducted.

The group was officially greeted on October 18 by Mr. Robert C. Sprague, Founder, Chairman of the Board and Treasurer. Mr. Sprague spoke to the group about the present and future plans of the Company. Later he joined the group in the Marshall Street cafeteria for lunch.

The three week long tour was set up and conducted by the Company's Training Department under the direction of Courtney W. Flanders, Manager of Training.

Santa Fund

(Continued from page 1)

man; Thomas Cullen; Walter Rohane; John Muldowney; Moushy Markarian and Joseph Moresi. Age Classification: Rita Chenail, chairman; Eta Owen; Ida Fix; Ruth Graves; Louis Larsen; Ralph Boisjolie and Marion Caron. Wrapping: Ernest Purpura, chairman; Alfred Bergeron; Donald Meiklejohn; Charles Belouin; David Puppolo and Livingston Rice. Clerical and Secretarial duties will again be handled by Monica Nowak.

The "Toys For Tots" program will start shortly with the placement of large bins at the gates of the four Sprague plants—Marshall, Brown, Beaver and Union—to collect serviceable toys. Later if necessary, those toys which are serviceable will be repaired, and then wrapped and labeled according to age, in wrapping bees by Management Club members. Then again Club members will swing into action on December 23 and 24 to deliver the presents to the children in time for Christmas.

The Santa Fund also provides the toys which accompany the food baskets distributed by the Salvation Army.

Now is a good time to check your basement or attic for toys which your children no longer use. Find all you can and place them in the bins that will be placed at each gate. These toys will make a very happy Christmas for some less fortunate child.

SPORT HIGHLIGHTS

The North Adams Babe Ruth League awards its batting championship trophy to Joseph Gentile (second from left) for a batting average of .576. The presentation was made at the Annual Windup Dinner by league president, Ralph Boisjolie (second from right) while Dale Long (left) and Edmond Vaudnais (right), 1961 president wait to congratulate the batting king. Joe is the son of Bernice Gentile of DX Assembly, Marshall Street. He played on the ICW No. 2 team.

Howard Sherman accepts the Softball League trophy on behalf of QAR, the League champions, from Henry Doane, Softball League Commissioner. Tony Tassone, QAR team manager (left), and Fran Brazeau, QAR's winning pitcher, look on.

Bowling Nears Halfway Point

The Sprague Bowling Leagues are progressing at a good pace and all indications seem to show close battle in all the leagues for league leadership. Interest has been keen and upsets have been made.

Highlighting the Men's Ten Pin League was the recent upset that Tantulum received at the hands of the Ceramic team, which took all points in their recent match.

It was interesting to note that the Women's Ten Pin League is displaying some fine bowling, especially since this is the first year the league has been formally organized.

The never-die Candelpin bowlers in both the men's and women's leagues are rapidly increasing their scores as the season enters the halfway mark. Some mighty fine exhibitions have been going on and those pins are really taking a beating as some of the old pros are really beginning to hit their stride.

Trophies and Awards Presented at Golf League Banquet

The annual Golf League banquet was held on October 27 at the Four Acres Restaurant in Williamstown with sixty-five employees attending. The affair climaxed another successful season for the increasingly popular league which was organized in 1953.

Paul Fern served as master of ceremonies with Francis Wilson and John Sprague presenting the trophies and awards to the following: Team Champions — *Indian Creek*: Walter Schroeder, Jack Washburn, Don Tanguay, Fred Windover, Jerry Pessolano, Tom Hurley, Jim Casey and John Nixon. Runners-up — *Oakmont*: Don Morris, Art Lanoue, Bob McPherson, Leo Mullen, Kenny Haskins, Ray Lamoureaux and Leslie Kent. League Leaders: *Wingfoot*: Ralph Fressola, Roy Douglas, John Ortman, Paul Netherwood, Ed Younglove, Milt Hattat and John Hewitt.

Individual *Low Gross Average* award went to Ralph Fressola with Walt Schroeder placing 2nd. *Most Valuable Player Award* went to Bob McPherson with Ed Younglove getting runnerup honors. *Most Improved Player Award* was received by Kenny Haskins.

Following the presentations a discussion period was held in regard to increasing the number of team players so as to accommodate the many new league members. It was agreed that League Officers and Team Captains would meet early next Spring to set up expansion plans for next season.

Golf movies rounded out the program highlighted by a film on the Amputee Golf Tourney at Chicago taken by Frank Osterhoudt, a participant in that National Tournament.

Sports Quiz...

Test your sports knowledge and grade yourself as follows: 0-2 poor; 3-5 fair; 6-9 good; 10-13 very good; 14-16 excellent. Questions 4, 6, 7, and 8 rate 1 point each; all others 3 points each — 1 point for each part.

1. Match the following:
 - a. Bowling Green 1. Warriors

 - a. outdoor polo
 - b. water polo
 - c. cricket
4. Name the major league manager whose club won four pennants in five years and then finished last seven times in a row.
5. What three baseball players have been honored by the New York Yankees by having their numbers retired? What were the numbers?
6. Who was the leading pro-football scorer in the 1959 season?
7. What pitcher won the 1959 All-Star game?
8. What jockey rode the most winning mounts in 1959?

Thought For The Day

The average working man is loyal to his own industry. A hat maker for example, would not buy an imported hat. But how often will you find the same person buying foreign-made merchandise other than that produced in his own industry!

Names In The News

(Continued from page 2)

PRESTON ROBINSON, Director-Consultant, was awarded a patent for an improved method for plating a conductive layer of nickel onto paper.

WALTER LAMPHIER, Product Specialist in Field Engineering, was awarded a patent for an uncased paper-Mylar capacitor wherein the Mylar extends beyond the side edges of the paper.

Trophies Awarded At Golf Banquet

1960 Sprague Golf League champs received their trophies at last month's banquet and John Sprague (left) is shown presenting the team trophy to Walt Schroeder, Jerry Pessolano, Don Tanguay and John Nixon. Other members of the winning *Indian Creek* team absent when the picture was taken were: Jack Washburn, Fred Windover, Tom Hurley and Jim Casey.

Golf League individual awards were presented by Francis Wilson, Manager of Employee Services. From left to right are: Kenny Haskins, winner of the "Most Improved Player" award; Mr. Wilson; Bob McPherson, winner of the "Most Valuable Player" award; and Ed Younglove, runner-up for the most valuable player award.

November Girl of the Month

Pert Barbara Ciolkowski, our November Girl of The Month, wants to remind each of us that the time is near to check your Christmas list — either gift or Christmas card. She has an extra long list to check! Barbara is a 1958 graduate of Adams High School and is now employed in QAR. In school she was active in the Girls Athletic Association, especially in soccer and basketball; and was a reporter for the school newspaper, the Hi-Tension. She is also interested in music and plays the piano.
